

A30S4E FREE-STAND SINGLE AND DUAL ACCESS ENCLOSURE

The latest Hoffman-branded enclosure from Pentair has been specially designed for heavy duty applications – housing systems with large components or complex mounting configurations – in harsh environments. Three-point latching and sealing provide industry-leading protection from dust, dirt, oil and water.

The enclosure is for housing motor starters, drives, contactors and PLCs, as well as a wide variety of other electrical and electronic equipment. It is used extensively in oil and gas, pulp and paper, chemical, food and beverage, pharmaceutical, textile and similar industries. The new design with double access is ideally suited for the mounting of physically large, heavy duty devices where tight sealing (IP) and rigidity (IK) is important.

INDUSTRY STANDARDS

IEC EN 60529, IP66
 IEC EN 50102, IK10
 IEC EN 62208;
 UL 508A Listed;
 Type 4, 4X, 12 File No. E61997
 NEMA Type 4, 4X, 12

SPECIFICATIONS

- Thickness 2.5mm, stainless steel type AISI 304 (EN 1.4301) or 316L (1.4404)
- External surface body and door brushed finish grain 240, $Ra \leq 0,8\mu m$, smooth internal surface (2B)
- Heavy-duty three-point latching mechanism operated by Type 316L stainless steel POWERGLIDE® padlocking handle
- Seams continuously welded and ground smooth
- Body grounding, studs door and body
- Two-door enclosures are provided with a removable centerpost for easy mounting plate installation
- Bottom gland plates, 3.0mm removable from inside, with grounding stud
- Seamless foam-in-place polyurethane gasket assures a water-tight and dust-tight seal
- High-impact thermoplastic data pocket provided with each enclosure
- Base plinth 100mm included, with front and rear removable cover for easy cable entry
- Door opening angle 100°
