

# SPECIAL PURPOSE

## CARBIDE TIPPED

- Ideal for production cutting, and particularly suitable for use in drills with limited speed control
- Tungsten carbide tipped teeth provide superb product life and cutting performance Complete assembly - there is no requirement to purchase a separate arbor and pilot drill
- Safety stop at the base of the hole saw prevents saw travel beyond the hole saw depth - 1/2" (13mm)
- Recommended cutting depth 1/2" (13mm)
